

The Purpose of a Grant Application

Sophie Hyndman

Why is your project important?

Is it important to patients &/or carers? In what way?

Is it important to the NHS? In what way?

Is it important to wider society? In what way?

Is it important to the scientific community? In what way?

What do you hope the impact of your work will be?

If you have a funder in mind, have a look at their remit. Is your project important to the funder? In what way/s are you addressing their remit?
